Arun Kumar
President, Accenture Song

I've had the pleasure of working with Jacquelineen since 2023 and she has elevated my standards on what an executive coach and advisor can deliver. She simultaneously creates a safe and inclusive space while being direct and to the point to deliver real results. Whether it's conflict resolution, self-awareness and personal development, or management and negotiation advice, I came away from every session with more clarity and tools then going in. Her network is impressive and her experience deep, but she still comes to the table with humility and an incredible ability to listen. I would highly recommend her for both 1:1 work as well as group training and facilitation.
